Education

2021-2024   **University of California, Berkeley**
B.A in Computer Science, Data Science
Current GPA: 3.63/4.00

Experience

2019-2020   **Apple Inc.**
Technical Advisor
Provided high-level technical support to users across the U.S and Canada for iOS and watchOS systems, resolving software and hardware issues.

Works

Personal Portfolio Website
React UI, Chakra UI, Next.js, Three.js
Leveraged cutting-edge web development technologies to build a personal portfolio website. Implemented a 3-D model using Three.js and created an iOS web view using Flutter.

end2end Encrypted File Sharing System
GoLang
Engineered a client application for a secure, end-to-end encrypted file sharing system. Incorporated cryptography along with asymmetric/symmetric key functionality to ensure robust security.

penniless
MangoDB, Express.js, React, Node.js, Plaid API
Designed a web application that offers seamless, centralized access to associated bank accounts, enabling registered users to efficiently track their financial transactions, eliminating the need for repetitive logins to individual banking platforms.

Skills

Languages: Python, Java, GoLang, C, JavaScript
Development: Git
ML Libraries: PyTorch
